

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

A Diverse Industrial Base is in every respect more responsive to consumer's needs and resistant to the control of special interests, and antitrust-behavior.

I support regulation that discourages consolidation of media ownership into fewer and fewer hands.

As an interested consumer of media, and a voter, I urge you to reject deregulation of the Frequency Spectrum, and those using it in the Public Interest.

It didn't help for Banking and Securities, and it will lead to the same harm in media, and communications.

Thank You.
